

# SANITISE

P.135

## MULTI SURFACE SANITISING POWDER

### DESCRIPTION

Non-tainting, bactericidal detergent powder. Cleans & sanitises a variety of hard surfaces, work tops & kitchen equipment in one operation. Contains special stain removal properties & a chlorine releasing agent to provide an excellent cleaning & bactericidal action.

SANITISE will remove heavy dirt & grease in hard or soft water areas. It is non-tainting & therefore ideal for use in all Kitchens, Restaurants, Food Preparation & Processing areas.

### BENEFITS AND FEATURES

- \* Multi purpose detergent powder
- \* Contains a chlorine releasing agent
- \* Contains no perfume, will not taint foodstuffs
- \* Effective in hard or soft water
- \* Removes stubborn stains & grease
- \* Kills a wide range of bacteria
- \* Removes tannin

Supplied in the U.K. by EVANS VANODINE INTERNATIONAL PLC whose Quality System is registered by THE BRITISH STANDARDS INSTITUTION Cert. of Reg. No. FM 09535

### WHERE TO USE

Ideal for use in kitchens, restaurants, bars & wherever food is prepared or served. Will clean & sanitize kitchen equipment, utensils, vending machines, work surfaces & floors. Ideal for soaking mops, tea towels & dishcloths & also removing tannin from coffee urns, teapots & cups.

### HOW TO USE

FOOD PREPARATION SURFACES, TABLES, CHOPPING BOARDS:

Sprinkle powder onto moist surface or damp cloth. Wipe surface clean, rinse with clean water.

KITCHEN EQUIPMENT, VENDING MACHINES, REFRIGERATORS, FLOORS & WALLS:

Dilute 1 heaped scoop per 5lt warm water. Clean surface. Rinse with clean water. Vending machine removable parts & optics can be soaked overnight to help remove heavy soilage. Rinse thoroughly with clean water.

TANNIN REMOVAL:

Dilute 1 heaped scoop per 5lt warm water. Soak affected crockery until tannin & stains are removed. Rinse with clean water.

### **DO NOT MIX WITH ACIDS AS CHLORINE GAS WILL BE LIBERATED**

We consider warm water to be between 30°C & 40°C.

### COMPOSITION

Contains a blend of troclosene sodium, dihydrate, disodium metasilicate, surfactants & sodium carbonate.

### TYPICAL PRODUCT ANALYSIS

Appearance:	Granular powder	Colour:	Purple/Pink
Odour:	Faint chlorine	pH Value - undiluted:	N/A
Specific Gravity (20°C):	N/A	pH Value - diluted 1% solution:	11.50
Viscosity @ 20°C Flow Cup 4	N/A	Non-Volatile Content w/w:	100%
Total Ingredient Content w/w:	100%	Biodegradable:	N/A
Shelf Life Unopened:	2 Years	Product Code:	C009

### PACKAGING

15 kg polythene bucket.
